Kaffee Papier recycled/
[Coffee Paper]

Range Chart

Sustainable recycled design paper

202007

Ecological conscience and sustainability are important components of brand communication. Coffee paper conveys this at first glance: upcycled coffee waste and 100 % post consumer recycling fibers give it a spectacular pattern and an obviously recycled character. Its unique optics and excellent printability make it the perfect material for both, packanging and printing applications that stand out.

What

FSC® - certified

100% PCW recycled fibres
Other substances and sizes available
